# our mission

**Building a mutually supportive society that enjoys mental health and good morals, which are on the verge of extinction.**

# Discipline with love

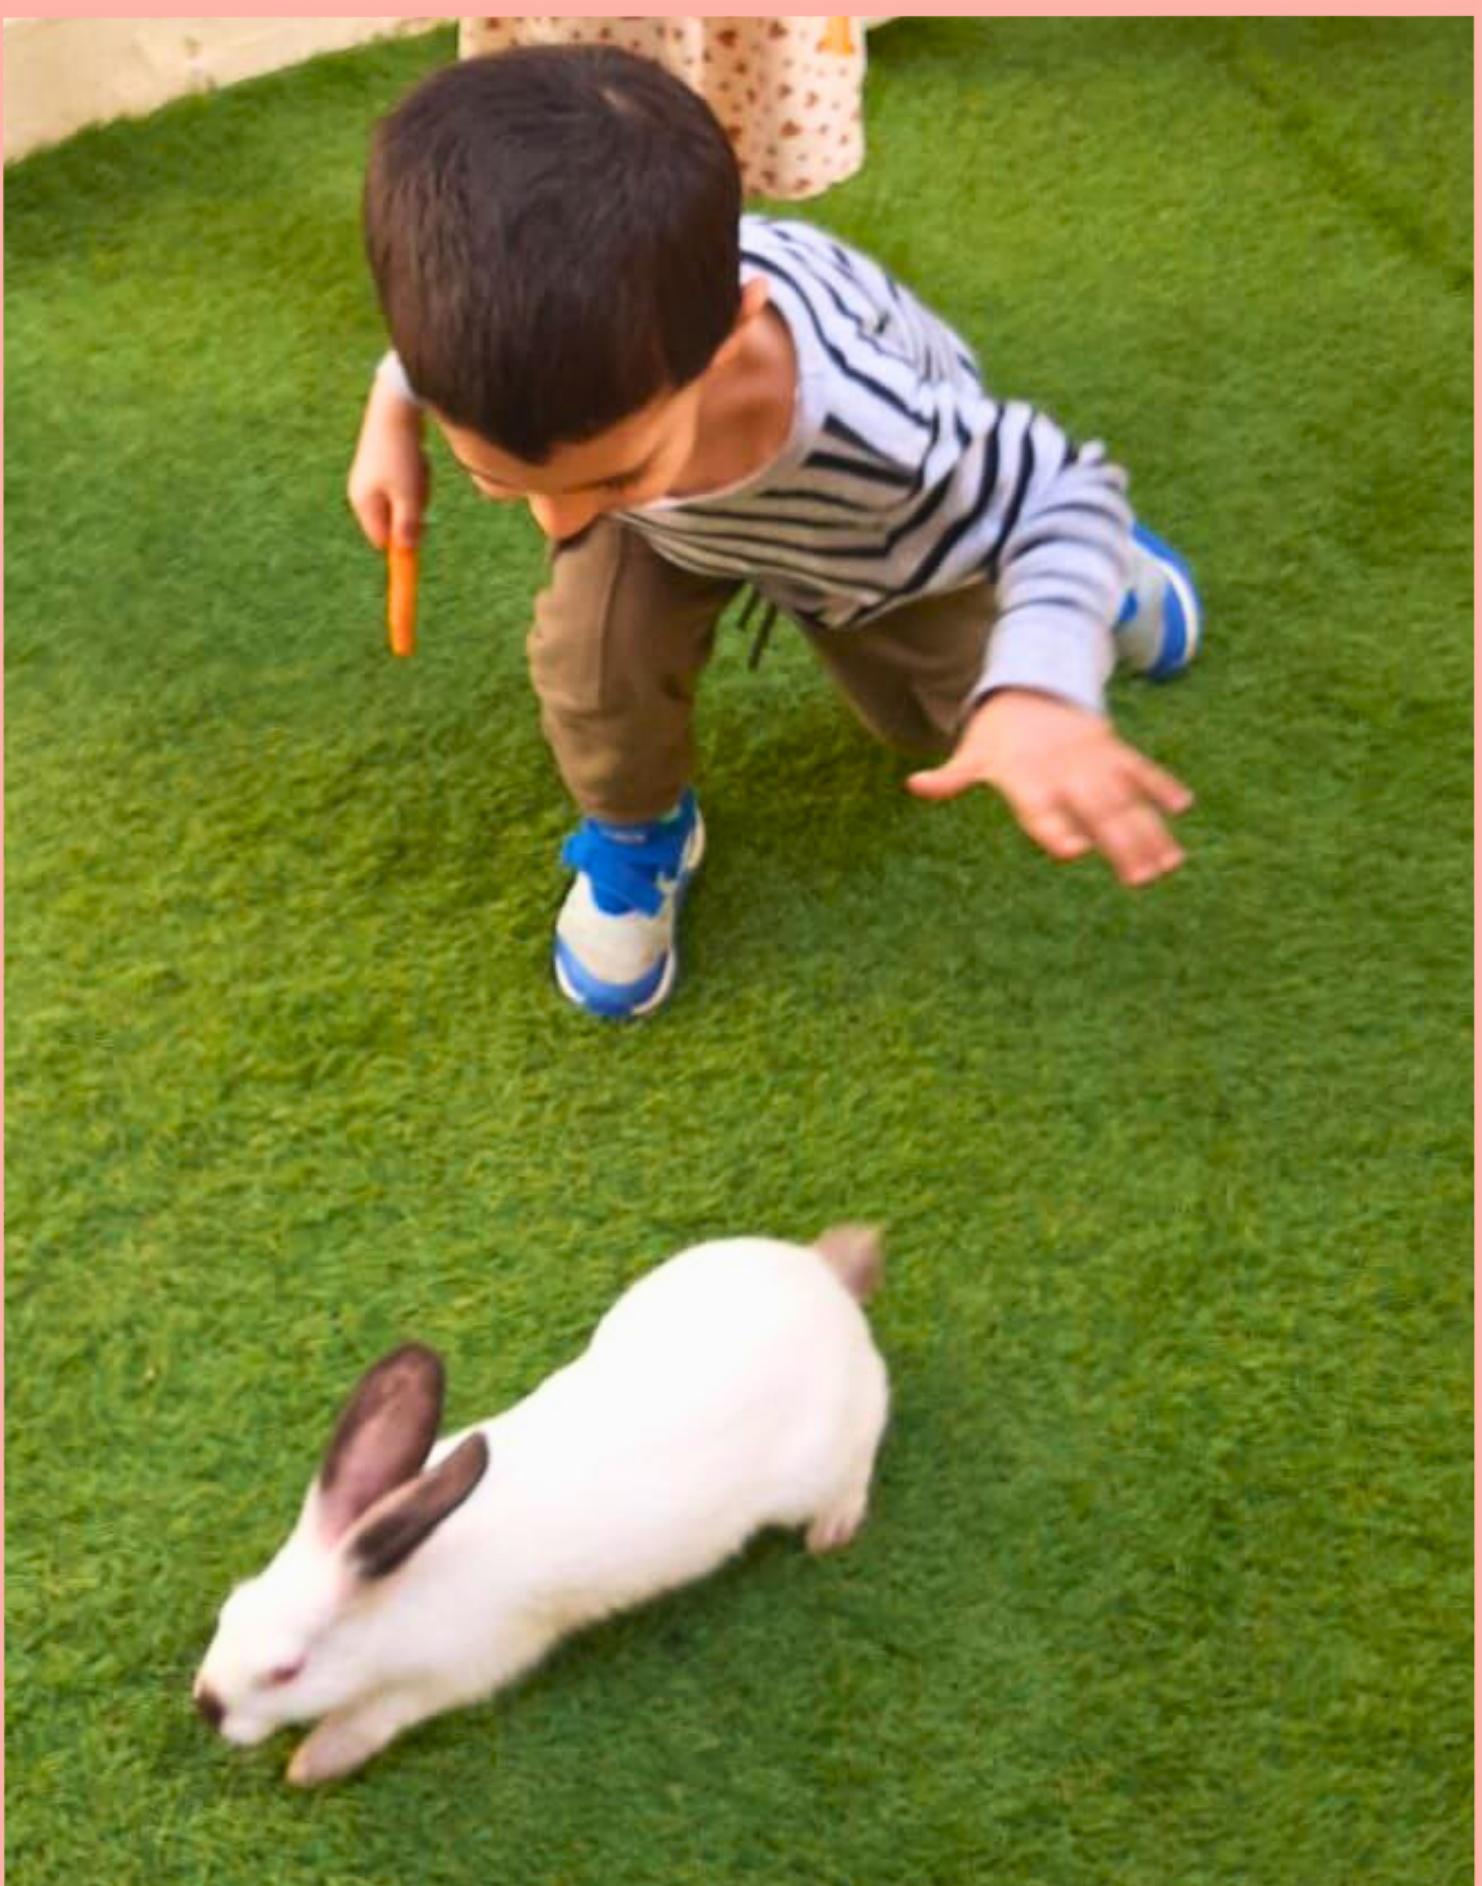

Raising the child with love, and by role  
model and sympathy

Training the child to be independent,

Considering the child's psychology,  
needs and feelings.

Communicating with parents and help them  
to raise their children through  
consultations  
with specialists and training workshops

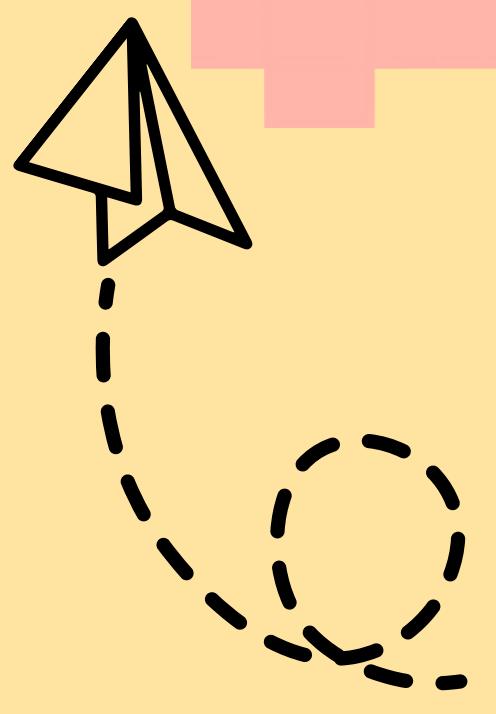

# Fun side

we provide different areas for playing and improving its different skills as well as an equipped outside garden to practice its different activities.

# Hygiene and nutrition

Paying attention to the child's  
hygiene  
and healthy nutrition.

Cleaning and disinfecting the place.

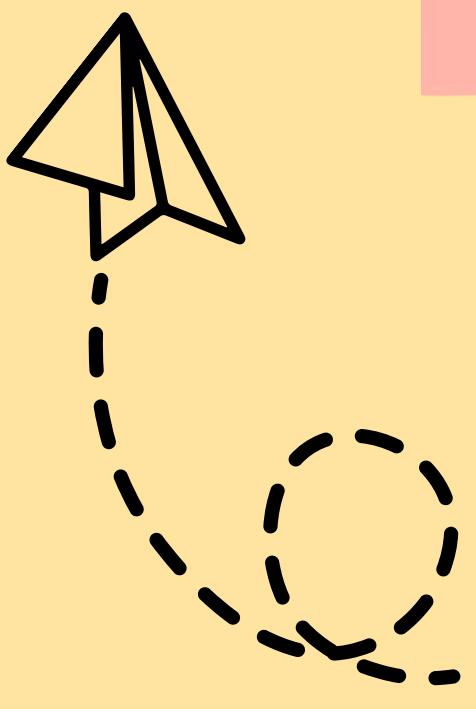

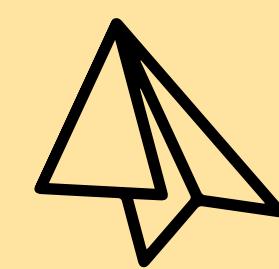

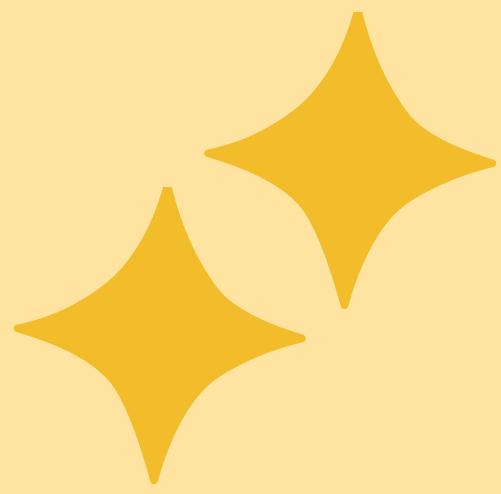

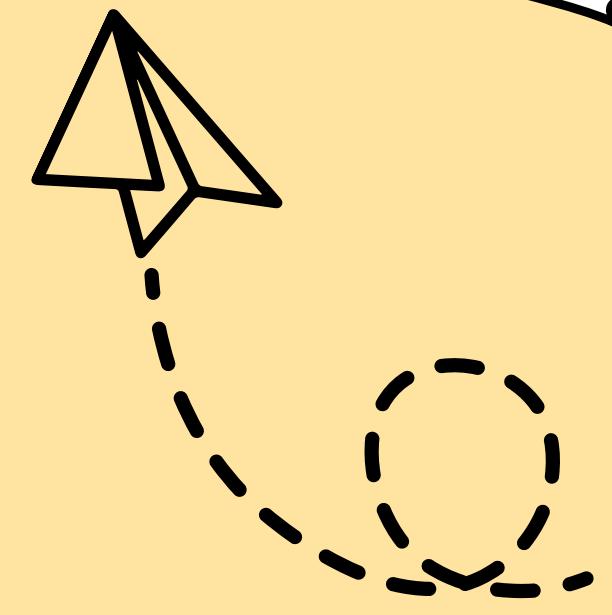

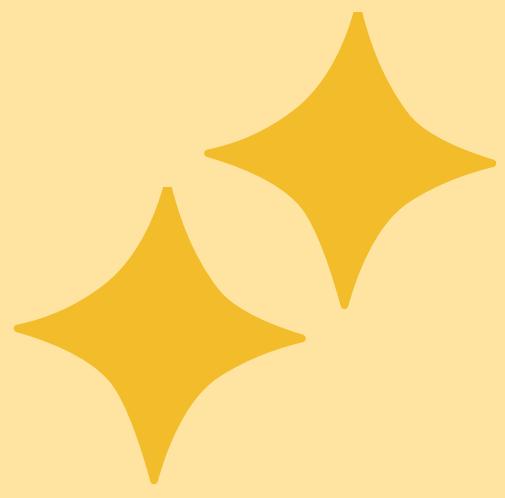

# The Holy Quran

Attention to intonation  
and Pronunciation.

Rehabilitating the child to  
read from the Qur'an at an early  
age using the "Noor Al-Bayan"  
method.

Integrating and applying what the  
child memorizes in life situations.

# Moral

The child learns behaviors and

etiquette

through advanced educational

means and

through model and application.

# Curriculum

The child learns creed, hadith, jurisprudence and remembrances in simple and interesting ways that makes the child desires in and loves his religion.

Learning and religious stories.

Learns about the geniuses of Islam and the Arabs and their inventions.

Learns about the biography and stories of the prophets.

# language and culture

Rehabilitation of the child to speak  
Arabic fluently.

As well as , learning English from  
qualified teachers.

Endearing the child to the Arabic  
language

and cherishing his identity.

بُنْيَان

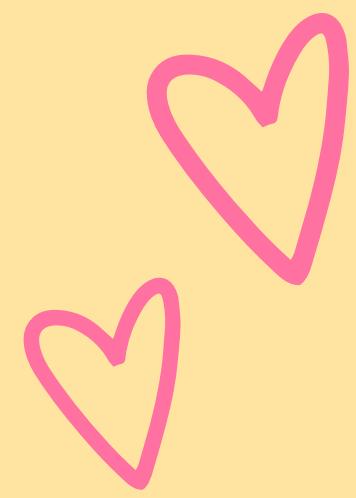

# Important Islamic Dates

we celebrate Islamic events to help children feel connected to their religion

we create a joyful and engaging environment for the children by decorating our spaces and organizing activities related to these events.

We provide explanations and discussions about the events.
